Zionist archaeologist Ze’ev Herzog- professor at Tel Aviv University and director of the Institute of Archaeology published an article in 1999 stating, following 70 years of intensive excavations in the Land of Israel, archaeologists have found out: The patriarchs' acts are legendary, the Israelites did not sojourn in Egypt or make an exodus, they did not conquer the land. Neither is there any mention of the empire of David and Solomon, nor of the source of belief in the God of Israel. These facts have been known for years, but Israel is a stubborn people, and nobody wants to hear about it.

23 Israel was created by extraordinary men and women; the earth was envious of them. This helps me believe in God because Israel was a vision turned into a reality where mankind worked together to make a better earth.
